I Seguire scrupolosamente le istruzioni fornite dal costruttore.
Tutti gli apparecchi costituenti l'impianto devono essere destinati esclusivamente all'uso per cui sono stati concepiti.
Effettuare l'installazione in conformità alle norme vigenti.
Tutti i prodotti sono conformi alle prescrizioni delle direttive CEE 73/23-89/336 ed è attestato dalla presenza della marcatura **CE** sugli stessi.

GB Carefully read and follow the instructions given by the manufacturer.
All the equipment making up the installation must only be used for the purpose it was built for.
Install the equipment in compliance with the legislation in force.
All products comply with the requirements of the directives EEC 72/23-89/336. This is proved by the **CE** label displayed on the products.

F Suivre scrupuleusement les instructions fournies par le costructeur.
Tous les appareils qui costituent l'installation doivent être destinés exclusivement à l'utilisation pour laquelle ils ont été conçus.
Effectuer l'installation conformément aux normes en vigueur.
Tous les produits sont conformes aux prescriptions demandées par les normes CEE 73/23-89/336. Cela est attesté par la présence du marque **CE** sur les produits.

D Die vom Hersteller gelieferten Anweisungen sorgfältig durchlesen und befolgen.
Sämtliche die Anlage betreffenden Geräte dürfen ausschliesslich für den Zweck verwendet werden, für welchen sie geschaffen worden sind.
Die Installation muss unter Einhaltung der gültigen Richtlinien ausgeführt werden.
Alle Produkte entsprechen den Richtlienien EG-73/23 und EG-89/336. Die Übereinstimmung der Produkte mit den genannten Richtlinien wird beglaubigt durch das Vorhandensein der **CE**-Markierung auf den Produkten.

SCHEMI INSTALLATIVI

Funzionamento base

• Premendo un tasto di chiamata al posto esterno, il visitatore aziona la chiamata elettronica del monitor interessato, si accendono i led all'infrarosso per l'illuminazione del soggetto e dopo 3 secondi appare sul monitor l'immagine del visitatore per la durata di 90".
• Ove è stata prevista l'autoaccensione, il monitor può essere acceso anche in assenza di chiamata, premendo il pulsante n. 1.
• La conversazione avviene sollevando il microtelefono e mantenendo premuto il tasto posto sullo stesso.
• Il tasto contraddistinto dal simbolo della chiave serve per aprire l'elettroserratura.

INSTALLATION DIAGRAMS

Basic operation

• When the external unit call button is pressed, the visitor activates the electronic call of the monitor involved and the infra-red LEDs come on. After 3 seconds the picture of the caller appears on the monitor and remains for 90 seconds.
• Automatic switch-on occurs on preset monitors in absence of call, by pressing push-button n. 1.
• Conversation takes place by lifting the handset and keeping the speech button pressed down.
• The button marked with the key symbol is to release the electric lock.

SCHEMAS DES INSTALLATIONS

Fonctionnement de base

• Lorsqu'il appuie sur un bouton d'appel du poste extérieur, le visiteur actionne l'appel électronique du moniteur intéressé, la lampe de filmage de la caméra s'allume et 3 secondes plus tard, l'image du visiteur apparaît sur le moniteur pendant 90".
• Où l'auto-allumage a été prévu, le moniteur peut être allumé en appuyant sur le bouton n. 1 même sans avoir aucun appel du porte extérieur.
• La communication peut avoir lieu dès qu'on soulève le combiné et qu'on appuie sur le bouton dont il est pourvu.
• Le bouton caractérisé par le symbole d'une clé permet de débloquer le serrure électrique.

INSTALLATIONSSCHEMAS

Grundbetrieb

• Durch Drücken der Ruftaste an der Aussenstation betätigt der Besucher den elektronischen Ruf des entsprechenden Monitors, die infraroten LED zur Beleuchtung der Person schalten ein, und nach 3 Sekunden erscheint das Bild des Besuchers während zirka 90 Sekunden auf dem Monitor.
• Wo die automatische Selbsteinschalt-Funktion vorgesehen ist, kann der Monitor durch Druck der Taste nr. 1 auch bei Fehlen eines Rufs eingeschaltet werden.
• Die Verbindung erfolgt durch Abheben des Mikrotelefons und gleichzeitigem Drücken der Sprechtaste am Hörer.
• Die mit dem Schlüssel-Symbol gekennzeichente Taste dient zur Betätigung des elektrischen Türöffners.
